

IOSH – Managing Safely

The Aim of the Course is to:

Provide managers and those with leadership responsibilities with the knowledge and skills to integrate effective health and safety management and loss control practices into their leadership role.

The Objectives of the Course are to enable delegates to:

- Review the safety management arrangements in their area of responsibility
- Appreciate the safety and legal implications of management decisions
- Contribute to the development of safety management arrangements
- Take steps to develop a positive safety culture

Who Should Attend The Course?

Managers and anyone with management responsibility for staff, as well as those who need a clear understanding of the key elements of effective health and safety management and associated legislation.

Course Summary

Candidates will participate in theory lessons, which are highlighted by the use of PowerPoint covering;
