

Radio Frequency Awareness Training (Webinar)

Aims

Training delivered online via instructor led webinar session, designed to provide -

- Awareness of the hazards associated with working near radio frequency and how to recognise restricted areas.
- How to reduce/prevent exposure to sources of electromagnetic radiation and the potential effects on the human body.
- An overview of monitoring/measuring equipment.

Who Attends

Our theory based course for those who work on or near buildings, structures, masts or towers where radio frequency is present.

Course Content

- How electromagnetic fields are generated.
- The potential effects of over exposure on the human body.
- Sources of electromagnetic fields.
- The requirements of the EMF directive.
- Overview of monitors and dosimeter.
- The national register of RF workers

This course is approved by National Grid and Wireless and forms part of the requirements to access their sites.

Course Duration

This is a half day course.

Maximum Candidates

Maximum attendees: 12 candidates

Qualification Obtained

On successful completion candidates will receive a certificate valid for three years issued by Spanset.

Entry Requirements

- Delegates **must** be 18 years and over.
- SpanSet reserves the right to exclude unsuitable delegates from training courses.

Additional Information

PLEASE NOTE all online bookings are **provisional** until confirmed with you by our training team.
