

Course Content Form

EUSR Categories 3 + 4 + 5 Install, Inspect & Remove Timber, Steel & Proprietary Shoring Systems Refresher

Aims

This refresher course re-introduces the learner to the theoretical and practical dangers of excavation work. Examples of areas covered are but not limited to the HSE's HSG150, HSG 47 guidance, the Construction Industry Research and Information Associations report.

Learners will be refreshed on the necessity for identifying various ground conditions, and the variety of methods for utilising the appropriate ground retention system(s).

This course is highly practical in nature. Candidates will be practically assessed whilst installing ground support systems in a 'live dig' environment. We do not train in false environments (no concrete pits).

Who Attends

Managers, supervisors, safety professionals and/or operatives who are required to oversee or carry out work in or around excavations. If you physically install, inspect or remove shoring systems and have been qualified previously, this course is essential to maintain your qualifications.

Course Content

- Identify the dangers and hazards associated with working in excavations
- Differentiate between soil types and conditions
- Recognise suitable ground retention systems
- Carry out risk assessments unique to excavations
- Recognise the hazards, and implement control measures for those hazards
- Be able to safely install, inspect, and remove timber, steel and proprietary shoring equipment with practical experience in doing so
- Interpret specific temporary works designs

Course Duration

This is a 1 day course.

Maximum Candidates

Maximum attendees: 8 candidates.

Qualification Obtained

An EUSR Card will be issued upon successful completion of this course. This card is valid for 3 years.

Entry Requirements

Candidates must hold an EUSR Categories 3, 4 & 5 qualification that is in-date or has expired in the last 6 months.

Additional Information

PLEASE NOTE all online bookings are **provisional** until confirmed with you by our training team.
