

IPAF Push Around Vertical (Pav)

Aims

This industry leading course will provide delegates with the knowledge and practical skills to safely operate powered access equipment. This IPAF Operator course with practical training session and assessment covers Push Around Vertical (PAV) platforms. Push Around Verticals are essentially small, simple static vertical machines with no mechanical drive and are physically pushed around.

Who Attends

Those who operate, supervise or manage the use of powered access equipment including Push Around Vertical platforms (PAV). The course can be run as an IPAF category operator add-on / familiarisation course.

Course Content

- Introduction and pre-course theory test
- MEWP regulations and guidance
- Machine types and use
- Structural parts
- Familiarisation and pre-use inspection
- Safe operating methods and hazards
- Written theory test
- Practical training
- Practical assessment

Course Duration

This is a half day course.

Maximum Candidates

Maximum attendees: 6 candidates.

Qualification Obtained

Delegates successfully completing the course will receive an IPAF Certificate and Powered Access Licence (PAL) Card valid for 5 years.
